

Dear Student:

We appreciate your interest in becoming a member of our sports medicine team at SPC. Our staff has constructed an internship program where students have the opportunity to receive hands-on experience from Head Athletic Trainer and TTU graduate student athletic trainers.

Each athletic training student will have a structured rotation with different collegiate athletic teams to gain athletic training experience. Students will have the opportunity to enroll in specific athletic training courses to help study the profession: care and prevention of athletic injuries, and anatomy and physiology. The athletic training staff will also offer weekly in-service sessions to provide additional information on a variety of topics. Upon completion of the program, students should possess necessary skill and experiences to move onto four year institution for completion of their degree and to challenge the licensure exam of the Texas Advisory Board of Athletic Trainers, enabling them to practice as athletic trainers in the state of Texas.

The criterion for acceptance into the sports medicine program at SPC includes the following requirements: good academic background (GPA, SAT, ACT, etc.), sound work ethic and integrity, previous athletic training experience (high school student athletic trainer, workshops, conventions, or observation experiences), and a genuine interest in the field of athletic training.

Please complete the following application and return it to us as soon as possible along with three letters of recommendation from individuals who can attest to your character and potential as an athletic trainer. These individuals can include your supervising athletic trainer, team physician, coaches, teachers, or employers.

Again, we appreciate your interest in our program and are excited to visit with you about becoming a student athletic trainer at SPC. If you have any further questions, please feel free to contact us or use our website at www.SPCTexans.com. Once we receive your application, we will contact you for an interview or any additional information. Thank you for your interest.

Sincerely,

Mendy Wyatt, ATC, L.A.T.
